130041	W1 - Wipers wall/floor/stand system, W2 - Wipers combi roll system	255 m	26.2 cm	750	7.1 cm	2	Yes	Yes	White

Description

A multipurpose paper that is ideal for mopping up liquids and hand wiping. Thanks to the QuickDry quality, it is stronger, gets the job done quicker and is more absorbent than ordinary paper.

Tork Wiping Paper Plus

Colour: White Format: Combi Roll

Shipping data

Consumer unit

EAN	7322540182286
Pieces	1
Height	235 mm
Width	262 mm
Length	262 mm
Volume	16.1 dm ³
Net weight	2307 g
Gross weight	2348 g

Transport unit

EAN	7322540182293
Pieces	2
Consumer units	2
Material	Plastic
Height	235 mm
Width	262 mm
Length	524 mm
Volume	32.3 dm ³
Net weight	4.61 kg
Gross weight	4.75 kg

Tork Wiping Paper Plus

Colour: White Format: Combi Roll

Environmental

Content

The fibre composition in the product is virgin and recycled

Material

Virgin fibres and recovered paper

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Wetstrength agent

Dry strength agent

Dye

Fixing agents

Fluorescent whitening agent

Glue

Softeners

The process chemicals are:

Antipitch

Tork Wiping Paper Plus

Colour: White Format: Combi Roll

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Food Contact

This product fulfils the legislative requirements for Food Contact materials, confirmed by external certification performed by ISEGA. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

Packaging

Fulfillment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = Ecolabel

This product has EU ecolabel and Isega.

Date of issue 2006-06-12

Revision date 2011-09-02 2010-09-15

Production

This product is produced at Kostheim mill, Germany.

Kostheim mill is certified according to ISO 14001 and EMAS.

Disposal / destruction of used product

This product is mainly used for industrial processes and might through use be contaminated with different substances. This will determine how the used product will be handled / disposed of / destroyed. The product itself is suitable for incineration. Contact local authorities before destruction.
